

Republic of the Philippines
DEPARTMENT OF SOCIAL WELFARE AND DEVELOPMENT
 Field Office IX, Zamboanga City

EXECUTIVE SUMMARY
 April-May-June 2014
COMMUNITY BASED

July 7, 2014

I. INTRODUCTION:

The answer to the growing needs of the disadvantaged sectors in Region IX, the government including the NGOs, NGAs and some peoples organization joined efforts to initiate different programs and services. The DSWD being the lead agency of anti-poverty programs tried its best to fully implement urgent needs of clients. One of the recently launched special projects is the Expanded AICs, an aid to Individual in Crisis Situation which provided a wide range of services and provision of direct financial assistance including medical, transportation, financial, burial and educational needs and other services.

- Provision of financial assistance to 308 families who were victims in Campo Islam, Zamboanga City

- Continuous assistance to IDPs housed at the evacuation center and those who has returned with their respective communities.

ISSUES AND CONCERNS

Issues and Concerns	Comments and Recommendation
<p>-SWOs II in the SWAD-T/Community Based Unit has given less attention to retained programs and services especially on the development of foster care and adoptive applicants since they focus more on special projects with specifically the implementation of new expanded AICs.</p> <p>- Difficulty in ARRS to fast tract adoption, documents for CDCLAA and Data Banking as there is limited of functional computer and printer at ARRS/PSU.</p> <p>- No feedback on the referral cases of Human Trafficking to LGUs.</p> <p>-Some of the rescued/intercepted TIPs who were for investigation by CIDG took long days to process, hence, they became impatient and had expressed the need to return to their families especially the adults.</p> <p>- Limited staff to facilitate clients referred by Congressional, LGUs, NGA, NGOs, MSWDO and other constituents.</p> <p>-Despite the orientation and series of meetings with legislators, still they try to manipulate/dictate the implementation of the EAICS.</p>	<p>-</p> <p>-To purchase computer or netbook with printer to be used at ARRS.</p> <p>Strengthen institutional arrangement and functionality of (LCAT) for the provision of after-care services for the TIPS.</p> <p>Regular meeting to SBATT members and RIACAT for updates and revisits the Guidelines of the Task Force to have better understanding on the roles and functions of each member.</p> <p>Massive campaign and advocacy in all municipalities & LGUs with high incidence of illegal recruitment and trafficking.</p> <p>To augment staff handling AICs.</p> <p>Constant contact with the partner agencies and legislators to make them aware of the agencies role to help the needy clients.</p>
